archives microsoft exchange emails

sentinel mail-archive is an email archiving software that solves your email management problems on Exchange Server.

You will need a Support contract to enable our engineers to correct any problems reported.

It maintains an archive of all email correspondence, significantly reduce the demands on the Exchange server, manage and reduce the company's dependency on PST files and also to meet a growing number of regulations on compliance, sentinel stores all your organization's email in a central location that is easily accessible in three ways:

- ➔ through a folder in your users' Outlook email client (including Outlook 2010)
- ➔ by using a web browser
- ➔ from supported mobile devices. It integrates closely with Outlook in a first-in-its-class manner, avoiding the use of stub files which other products use

Relieves Exchange

Reduce the load on Exchange Server, increasing efficiency and providing your users with a virtually unlimited mailbox.

Reduces PST headaches

Because PST files are cumbersome and difficult to maintain, especially your network continues to grow, Sentinel Mail-Archive dramatically reduces your dependence on them.

Outlook Integration

Users can instantly and easily access archived emails directly from Outlook or the Mail-Archive web interface.

Easy to use

Easy to deploy and maintain. Also very simple for employees to use from their desktops and on the move.

Assists with compliance

Stores emails centrally and securely (tamper-free) for compliance, eDiscovery and internal investigations.

Easy Backups

Backs up emails in a way that allows them to be easily searched and restored in their original format.

Companies benefit from;

- ➔ Access to emails if required for eDiscovery and email compliance purposes, internal inquiries and employee monitoring
- ➔ A safeguard in customer complaints and lawsuits
- ➔ Auditing functionality that ensures stored emails are genuine and have not been tampered with
- ➔ A complete and secure archive of all company emails
